Peace Assignment in Serbia In the summer 2006 I visited Serbia on the invitation of the mayor of Kraljevo (Kingstown). On a mission of peace and in my function as World Peace Ambassador (*NSF*) I awarded four outstanding peace activists with the certificate "Honorary Peace Ambassador". These were presented in the Municipal Theatre at an event organized especially for this occasion.

VIPs Due to my activities I meet many VIPs. Many of my supporters are listed on my homepage: (www.new-peace.com) accessible for public viewing.

Significant is my meeting with Neale Donald Walsch (*USA*). Around 10 million copies of his books "Conversations with God" were sold. Presently we are in contact for mutual support of our projects. He asked me to write a book in English, which he would then recommend to his publishing company in the USA. With certainty this will take place this year (*2007*).

Personal comments

All of my work is based on esteem and humor, yet without loss of depth. I inspire people in my talks and written works through my choice of simple and easy to understand words, spiked with wit and provocation, which entertains and adds suspense without loss of essential context.

I view myself as politically, denominationally and spiritually independent and feel myself connected in love and respect to all people, races and communities.
